\$300,001 and Over Architecture

**Platinum: Beilinson Gomez Architects P.A.
Privata Town Homes**

The Awards

Sponsored by the Builders Association of South Florida (BASF), The Miami Herald, and El Nuevo Herald, the Florida's BEST Awards evaluates products and professionals in the building industry in over two dozen categories. The awards program, formerly known as FAME, is recognized by the public as the event to help those shopping for quality homes in Florida.

The Florida's BEST Awards program structure makes it easy to enter and provides a level playing field to evaluate all entries. Products in Dade, Broward and Palm Beach counties will be judged on-site except for Pre-construction, Marketing and Personal Achievement entries. On-site judging assures a genuine assessment of the actual entries rather than a competition of photography. For entrants, on-site judging saves money on extensive photography as well as the time and effort of preparing elaborate entry kits.

Entries are judged by an independent panel of building industry experts from around the nation and outside of Florida to minimize any chance of bias. Judges are recognized professionals in their field of expertise, with a well-rounded background of training and experience including builders, architects, interior designers and marketing professionals from around the country. Judges descend upon Florida for a whirlwind three-day period of judging in January. Judging will take place March 1-4, 2006.
